Rules of the Game

Object: To be the first player to the Administration Building and thereby receive a diploma.

1. 1-81 players can play.
2. Use rocks, salt shakers, toenails, or pennies as markers.
3. When a player lands on a "rules" square and he belongs to the ruling group he takes another turn. If he belongs to another group, he loses a turn.
4. To finish the game and graduate player must roll the exact number to land at the Administration Building
5. Any disputes should be settled by the Hylandale Student Handbook.
6. In the case of a tie, write to:

   Starker Bros.
   Commissioner of Rules
   Box 888
   Tokyo, Japan

   A quick settlement is promised by the brothers.
7. Dice can be used; however, Starker Bros. suggests closing your eyes and calling out a number between one and five to indicate how far you wish to move. This method saves time and also saves the company from shipping dice.
8. Do not cheat. Your move will be reported to the Registrar's Office and you will not be allowed to graduate.
