The "Ice Cave".

This cave was located just above the school on County Road "J" that runs past the school . It is on school land and is a natural crevice that keeps snow and ice all summer long. Back in the thirties it was dug out and three flights of stairs put in. which led to a small very cold room. A small building was placed up on the road and tourists paid a small fee to see this phenomone in the summer. Mr. Percy found a crack in some rocks over in the next valley by Highway 162 and he always figured that somehow there might be an underground connection of these two. However the steps have long since given way and the Shale rocks have fallen in, the pay booth is gone so that anyone going by knows nothing of the ice cave except a cool breeze when one gets close to where the old entrance was..

as church school teacher

Alfreda Costerisan

Alfreda Costerisan

A Tribute to my Dean

A is for her anxious watching over us
L is for her Christian love so true
F is for her faith in every student
R means right and that our dean is too
E is for her endless service for us
D stands for devotion to her God
A is for her name so dear - Alfreda

The best dorm mother any school could have.

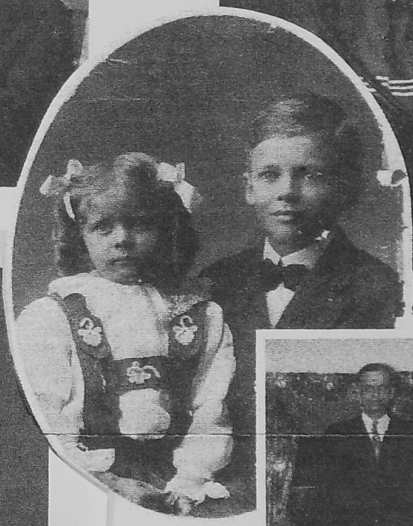

Percy Hallock Thru The Years

Percy and his wife, Josie with Herold, their first child.

Percy as a toddler — who says little boys can't be pretty?

Percy and his sister, Lula.

Percy as a young man.

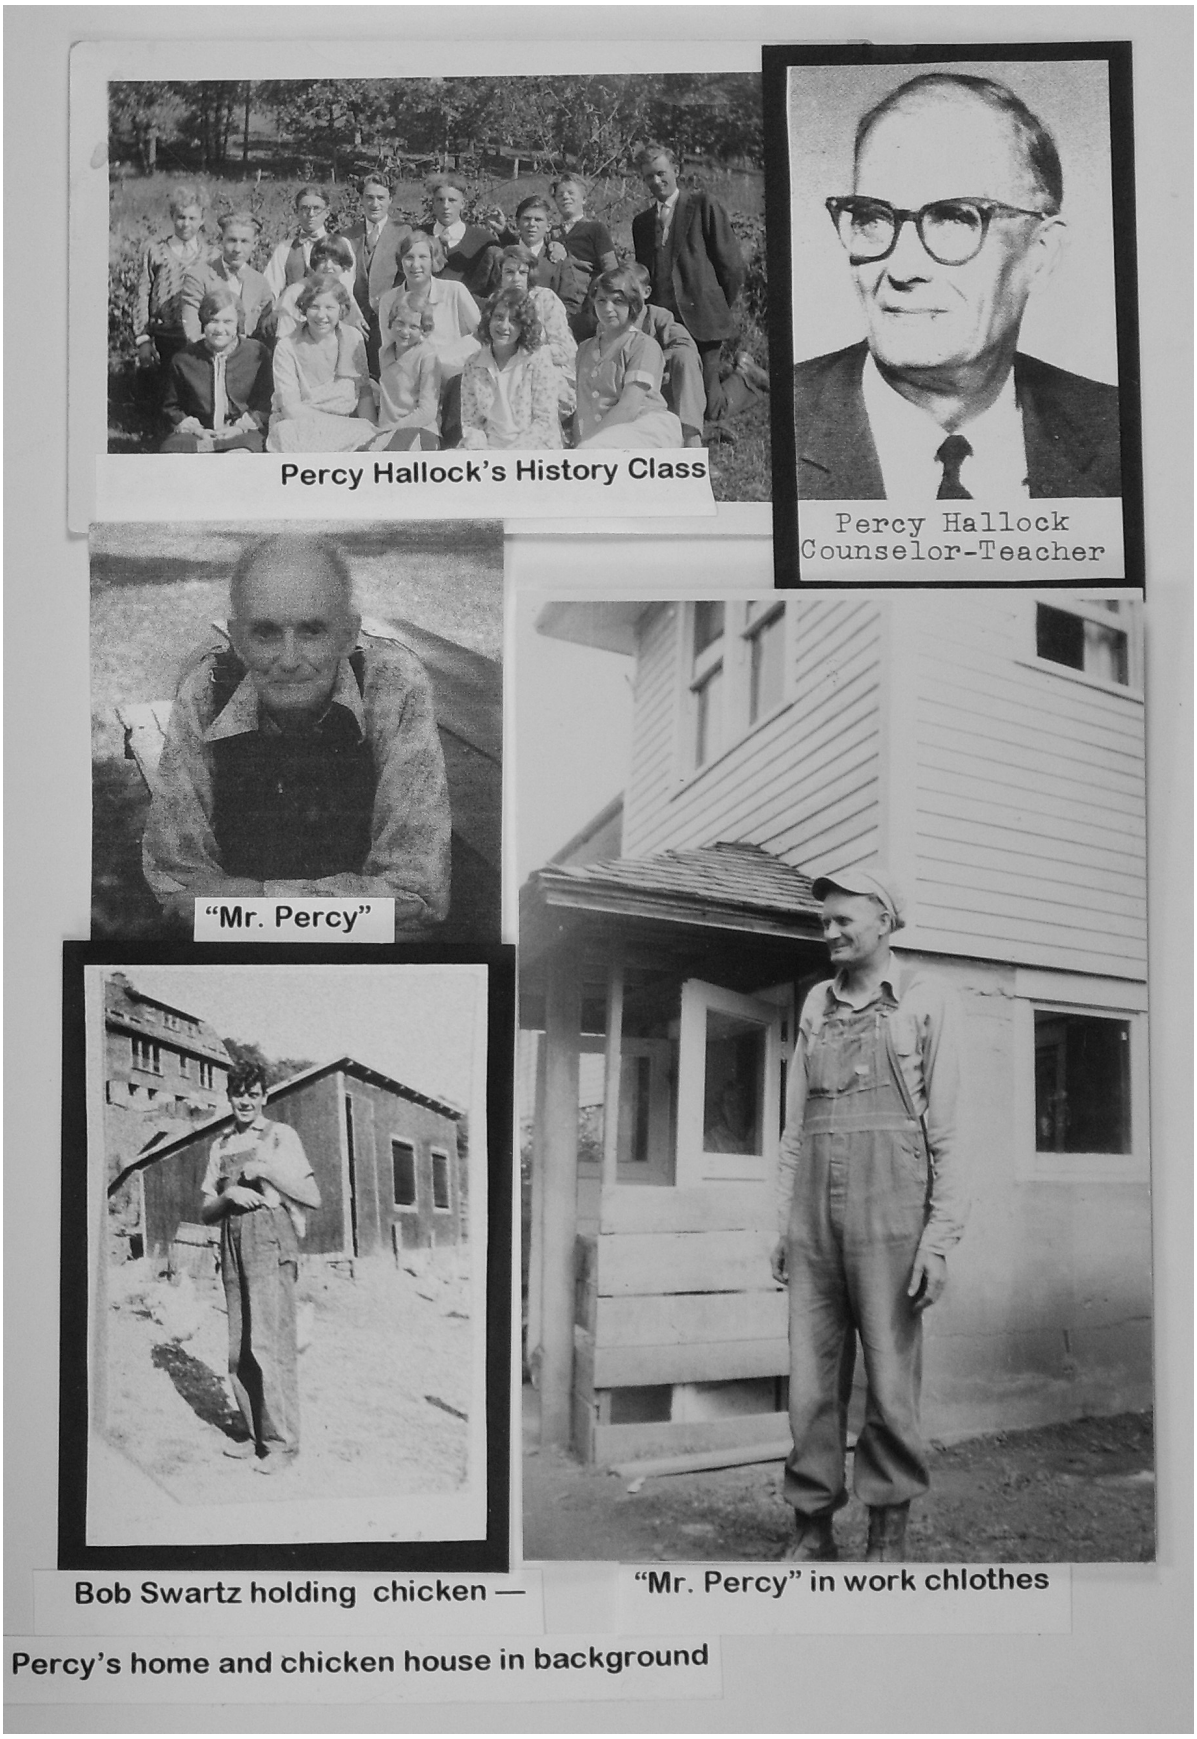

The long and the short of it, Percy and Tina, then a student at Hylandale.

Mr.& Mrs. Percy Hallock just married

Married 50 years

IN APPRECIATION OF Mr. PERCY

To a man who is greatly appreciated and loved by all, former and present students of Hylandale Academy, and who will be just as much appreciated and loved by all his future students.
